MOTIVATION

HANDS-ON DB

WHO NEEDS SQLITE WHEN WE CAN PRETEND
TO BE IT?

NO MORE BLACK BOX

BECAUSE EVERYONE LOVES MAKING THEIR
OWN TINY DATABASE EMPIRE

MINI BUT MIGHTY

MAKING A DATABASE SO
SMALL IT FITS OUR BRAINS

CORE FEATURES

CUSTOM DATABASE ENGINE

Lightweight SQL database
built from scratch

SQL OPERATIONS

Supports CREATE, INSERT,
SELECT, UPDATE, and DELETE
commands

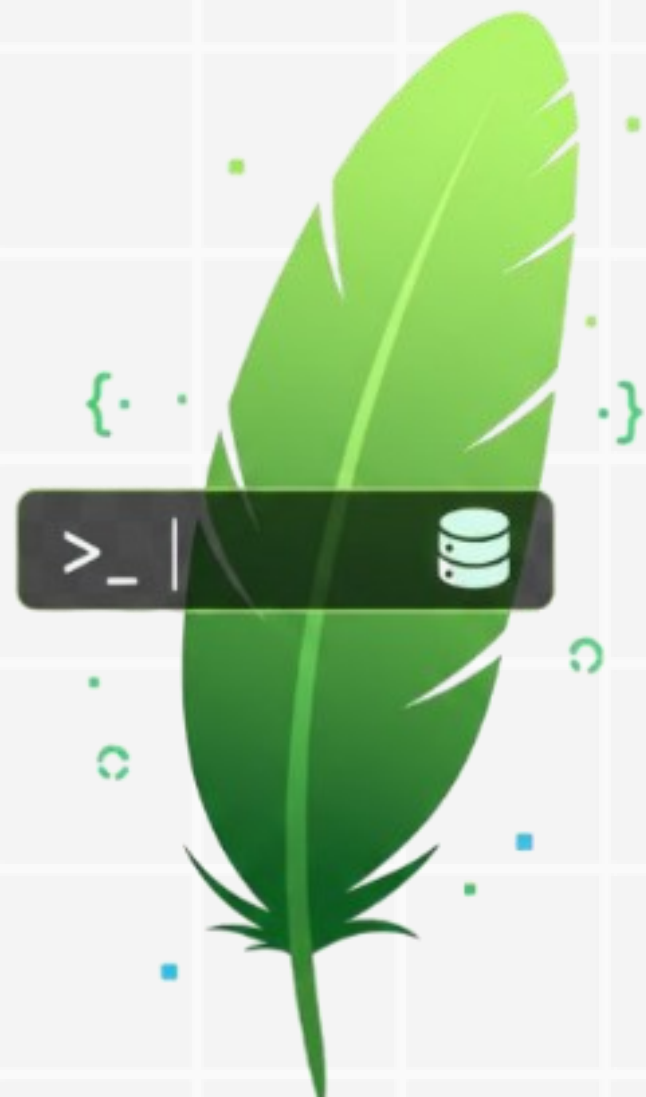

INTERACTIVE CONSOLE

Users interact with the
database via a simple, text-
based interface

APPLICATIONS

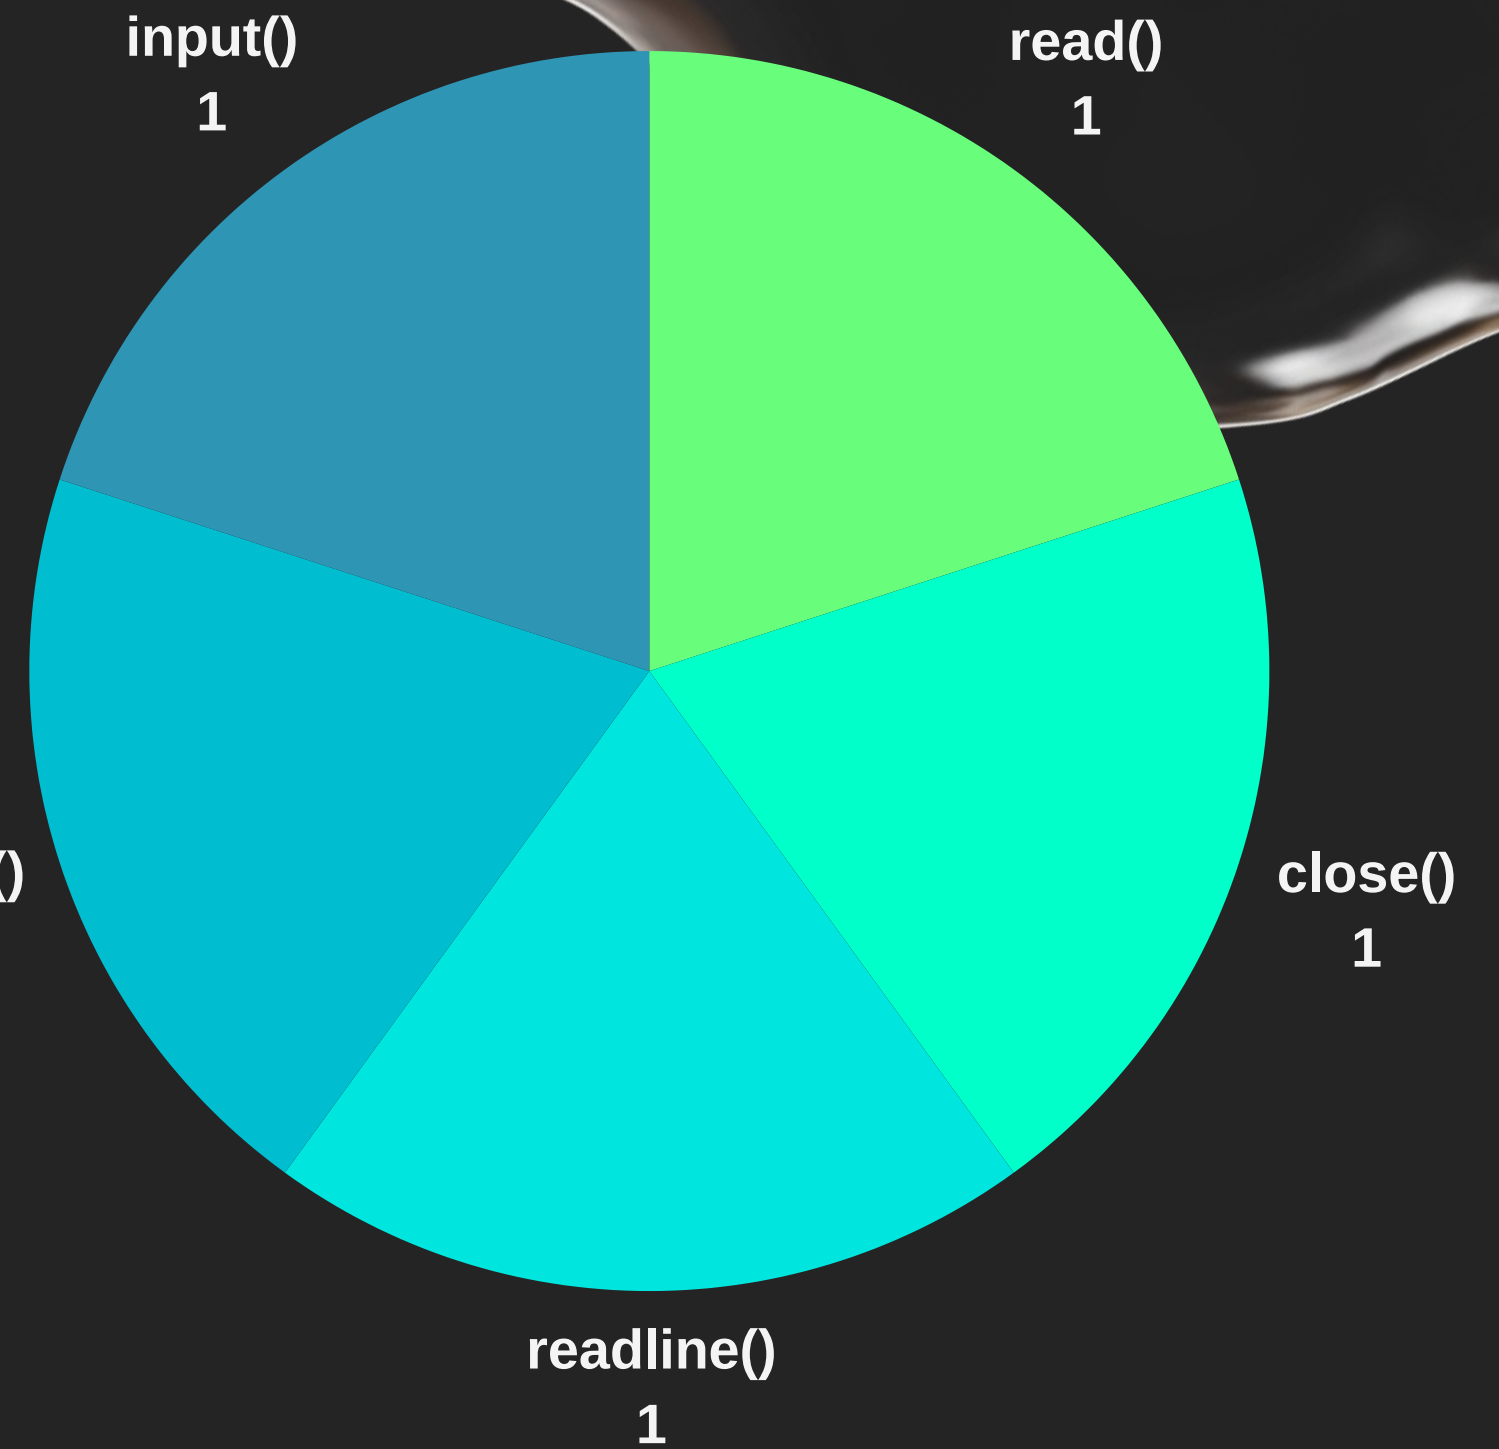

AKA WHO WILL USE IT?

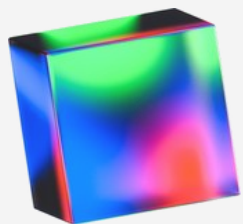

ANYONE DARING ENOUGH TO
UNDERSTAND DATABASE INTERNALS,
ONE CLI COMMAND AT A TIME.

TOOLS & TECHNOLOGY

- PYTHON
- VS CODE
- GIT
- GITHUB

PROJECT DEMO

```
id | name | age
```

```
-----
```

```
1 | John | 30
```

```
2 | Jane | 25
```

```
FeatherDB> DELETE FROM users WHERE id = 2;  
Data deleted successfully.
```

```
FeatherDB> SELECT * FROM users;
```

```
id | name | age
```

```
-----
```

```
1 | Alice | 31
```

```
FeatherDB> INSERT INTO users VALUES (2, "Bob", 25);  
Data inserted successfully.
```

```
FeatherDB> SELECT * FROM users;
```

```
id | name | age
```

```
-----
```

```
1 | Alice | 30
```

```
2 | Bob   | 25
```

```
FeatherDB> UPDATE users SET age = 31 WHERE id = 1;  
Data updated successfully.
```

```
Welcome to FeatherDB - A Lightweight SQL Database
```

```
=====
```

It supports basic SQL operations like:

- CREATE TABLE
- INSERT INTO
- SELECT
- UPDATE
- DELETE

You can interact with FeatherDB using the following commands:

- CREATE TABLE table_name (column1 datatype, column2 datatype, ...);
- INSERT INTO table_name VALUES (value1, value2, ...);
- SELECT * FROM table_name;
- UPDATE table_name SET column1 = value WHERE condition;
- DELETE FROM table_name WHERE condition;

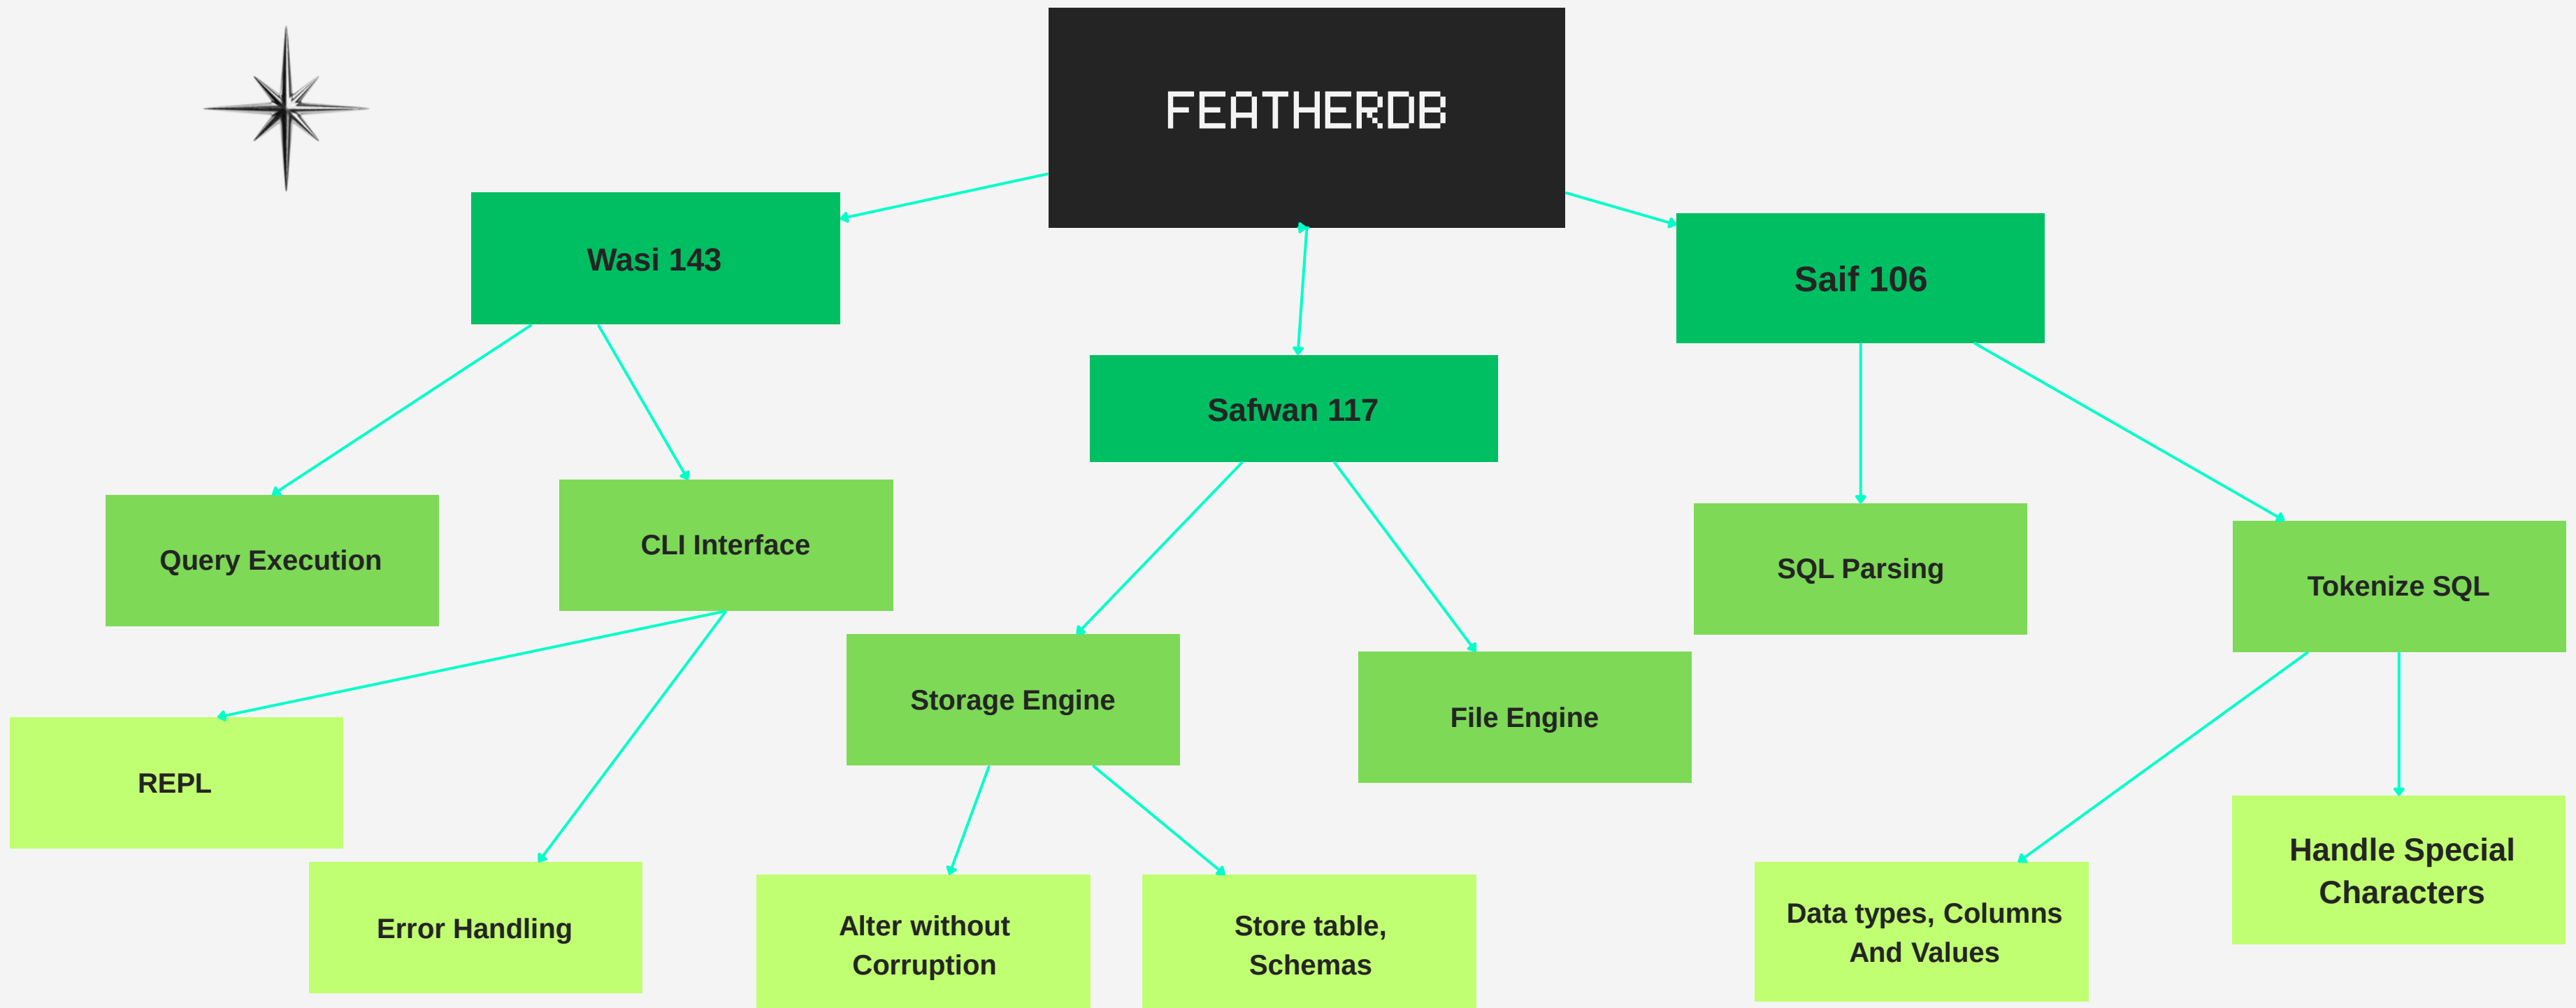

To get started, type your SQL command at the prompt.

For help or to quit, type:

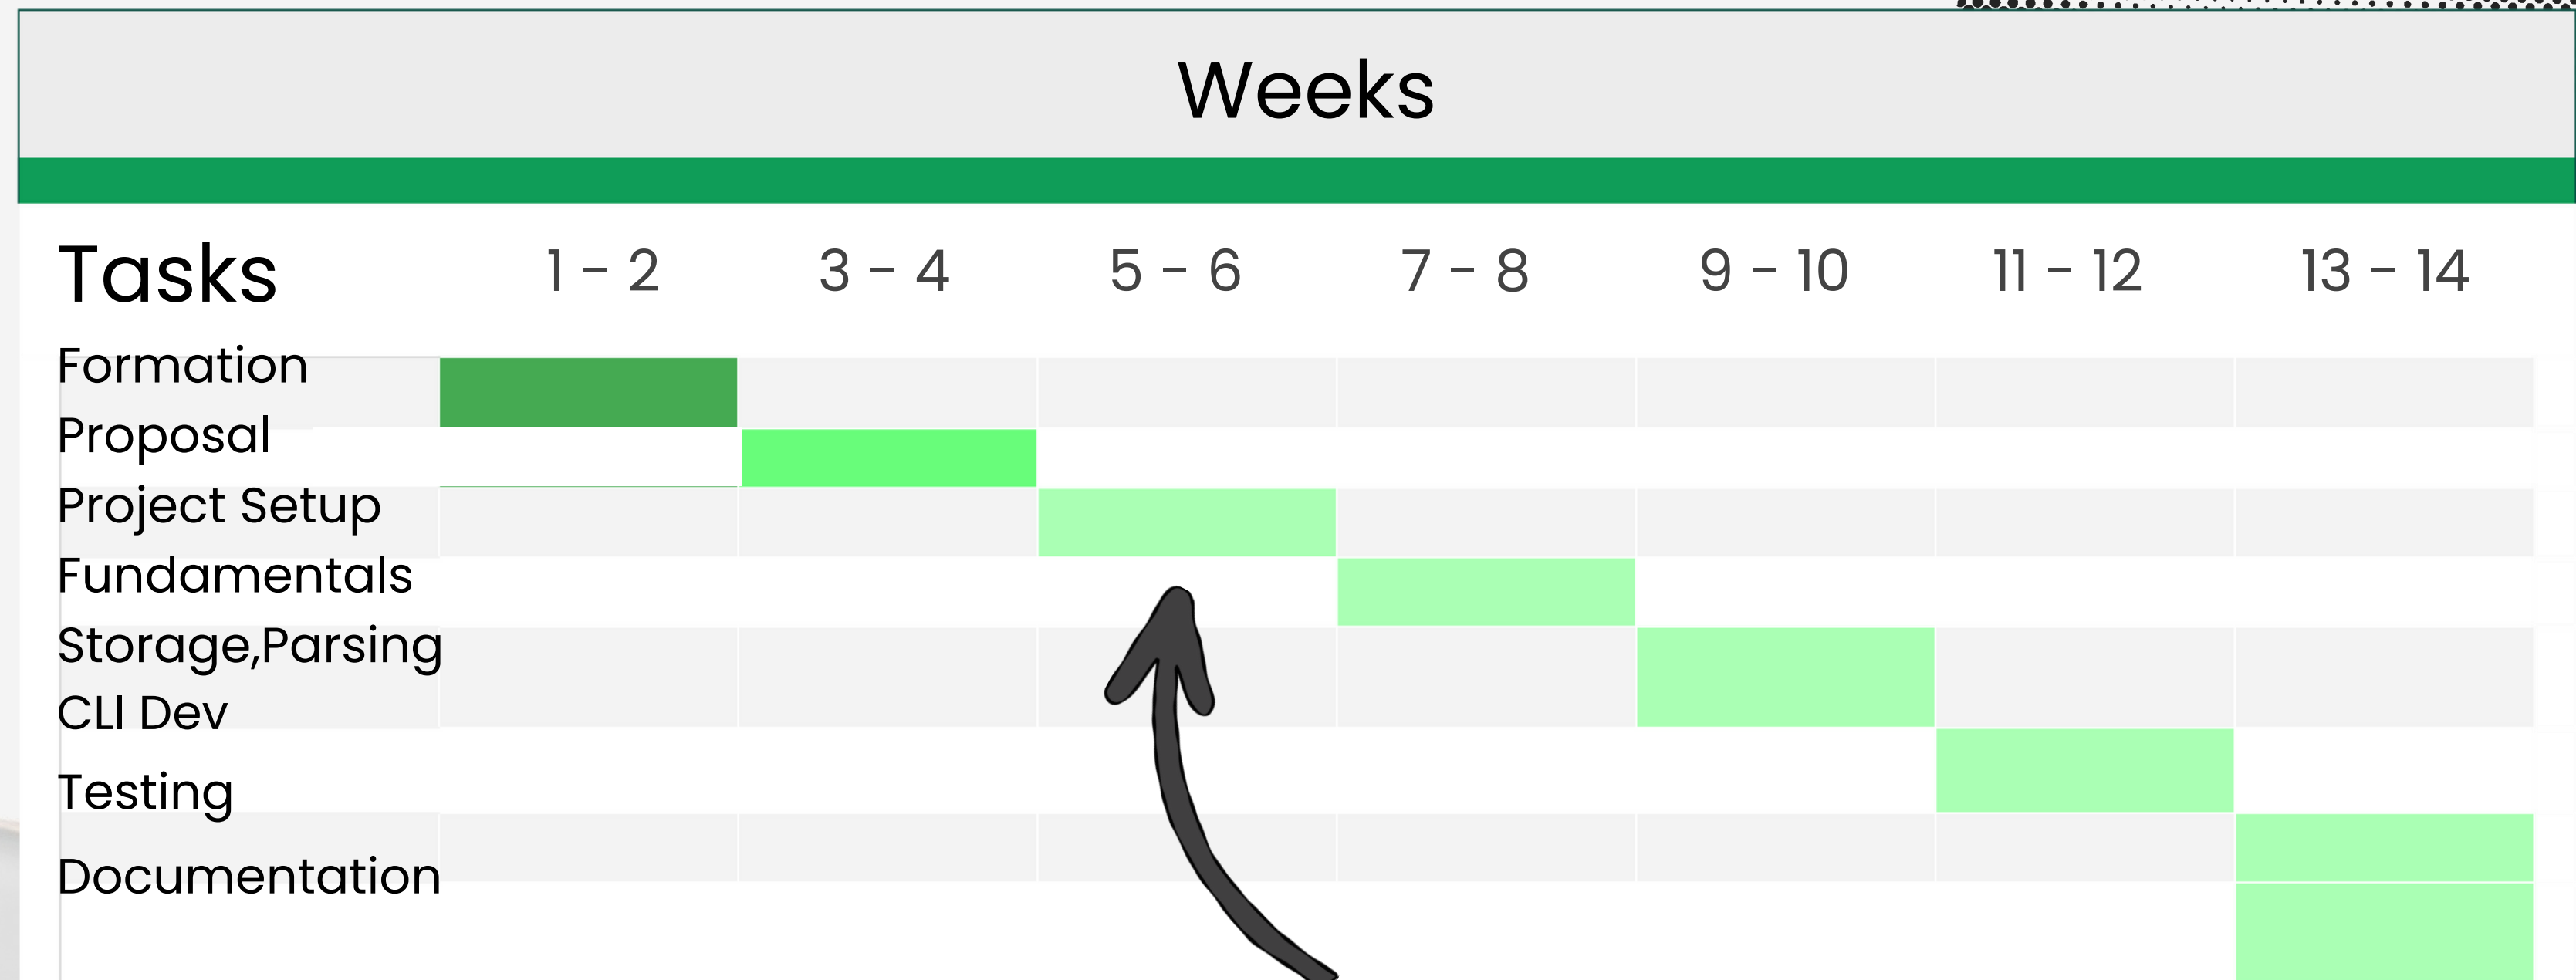

- HELP : Show this welcome message again
- EXIT : Exit the FeatherDB program

WORK DISTRIBUTION

Separate tasks, shared suffering

TIME LINE

curr

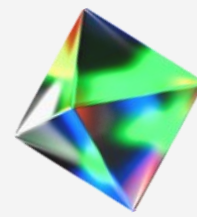

*

Note

Progress doesn't care if you're confident or clueless. It only cares if you're moving.

ToDo

Don't Procrastinate

THANK YOU!

ANY QUESTIONS?
[please no]
